THIS UNIQUE EVENT HAS BEEN A DECADE IN THE MAKING

ORGANISED AND LED BY
PROFESSOR
CARL HAYDEN SMITH
FROM THE UNIVERSITY OF
EAST LONDON

This invite-only
Museum of Consciousness event
will enable participants to have
an exclusive sound-activated
experience at the heart of ancient
Egyptian sanctuaries, which are
inaccessible to the public and
even to archaeologists.

We will use listening and
acoustic practices to test how
enclosed stone architecture
shapes perception, attention, and
group coherence.

Prof. Smith has spent over ten
years securing the necessary
permits from the Egyptian
Ministry of Antiquities, and it is
uncertain if such access will be
granted again, as these permits
are issued individually and rely
on longstanding personal
relationships

DAY 1: OCTOBER 28TH

PRIVATE VISITS DAWN TO NIGHTFALL

GREAT SPHINX OF GIZA (private)

We will hire the entire Giza Plateau at the crack of dawn in order to have full private access and welcome the sunrise between the paws of the Sphinx. As the sun rises, the stone reveals shades of gold and pink, exposing details you never see in photos: fine textures, subtle contours, and the quiet power of something that was first witnessed thousands of years ago. With no one else around, the silence deepens into something almost otherworldly.

PYRAMID OF DJEDEFRE AT ABU RAWASH (private)

Abu Rawash is extremely special due to its incredible and palpable energy. It is also historically and archaeologically very significant, as it houses Egypt's northernmost pyramid, the Pyramid of Djedefre, built by the son of Khufu. This pyramid is unique with its rectangular base and north-south alignment, differing from traditional pyramids. Additionally, recent discoveries like an ancient solar boat have shed light on early Egyptian technology and spiritual practices. The site's proximity to Giza and its role in ancient Egyptian culture make it a valuable archaeological treasure. It is part of a UNESCO World Heritage Site.

THE GREAT PYRAMID OF KHUFU (private)

We conclude our first day in the most famous ancient structures in the world, the Great Pyramid of Pharaoh Khufu. We will spend our private visit doing sound activations in the Subterranean chamber, the Queens chamber and the King's chamber exploring all the mysteries within and without.

DAY 2: OCTOBER 29TH

SAQQARA MYSTERIES

SAQQARA AREA & THE PYRAMID OF UNAS

Saqqara is Egypt's vastest and earliest necropolis. The Saqqara area includes temples, tombs, and the mysterious 'sound hospital,' a subterranean complex whose resonant chambers were used for ritual healing and acoustic initiation. Nearby, the Pyramid of Unas preserves the earliest Pyramid Texts, sacred incantations carved into its walls to guide the king's soul through the afterlife. Together, Saqqara and Unas reveal a landscape where architecture, cosmology, and sound converged to shape ancient Egyptian spiritual practice in ways that influence the Museum of Consciousness's explorations of sacred acoustics today.

STEP PYRAMID OF DJOSER (private)

We have exclusive access to an adventure beneath the sands of Saqqara to explore the subterranean tunnel system beneath Djoser's Step Pyramid, the oldest pyramid in the world. The labyrinth of tunnels is spread over three levels, with nearly 6 km of tunnels and chambers to explore. This includes up-close access to Djoser's impressive granite sarcophagus. In the storerooms, over 40,000 stone vessels have been found, many of which remain in situ, and some even predate Djoser.

SERAPEUM OF SAQQARA

We will explore the Serapeum of Saqqara, where the mystery primarily revolves around the construction and transportation methods used to create the elaborate underground tombs. Each sarcophagus in the Serapeum weighs an astonishing 60 to 70 tonnes and is carved from a single block of granite. Massive unfinished stone blocks will surround you, their surfaces bearing chisel marks left thousands of years ago. You may find small side niches, unfinished corridors, or architectural anomalies suggesting phases of construction long debated by archaeologists.

DAY 3: OCTOBER 30TH

SOLAR TEMPLES & HIDDEN DEPTHS

ABU GHORAB SOLAR TEMPLE COMPLEX (private)

On our last day, we will have an early start to arrive at the remarkable solar temples and pyramid complex of Abusir just as dawn breaks. Here, we will explore the remains of four pharaohs' pyramids and other relics of the Old Kingdom's grandeur. We have also now gained additional permission to enter Abu Ghorab, a 40-minute walk from Abusir, the largest and best-preserved solar temple and the site of an Early Dynastic burial ground dating back to the First Dynasty.

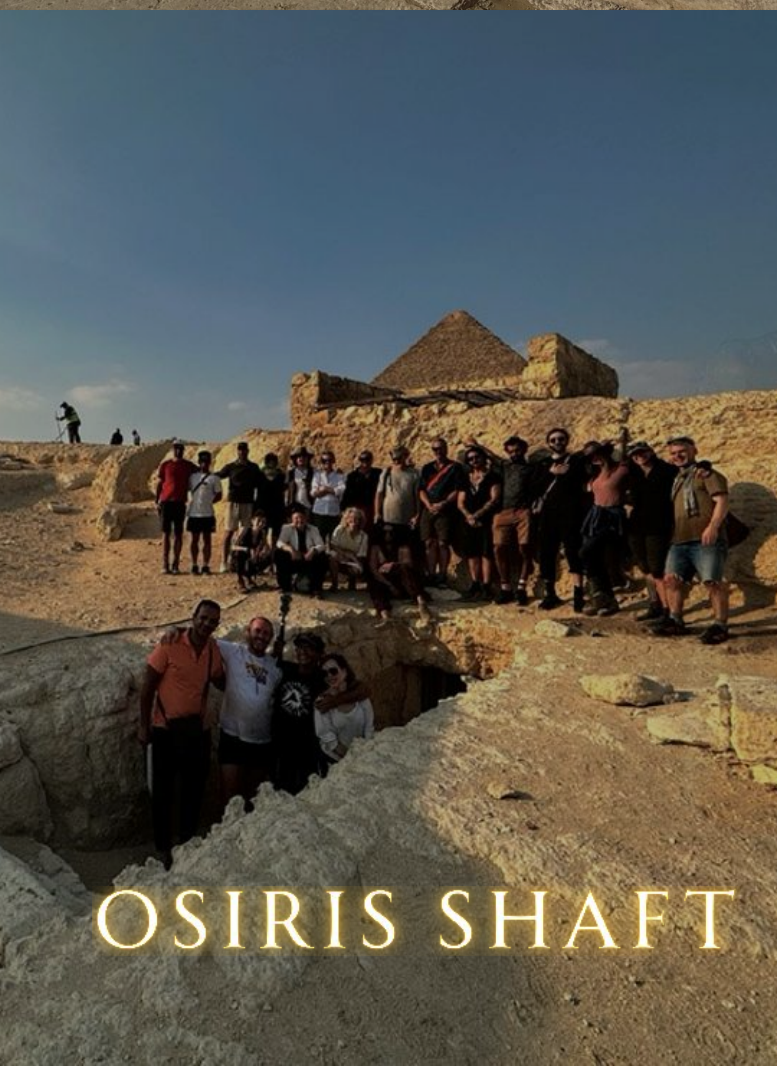

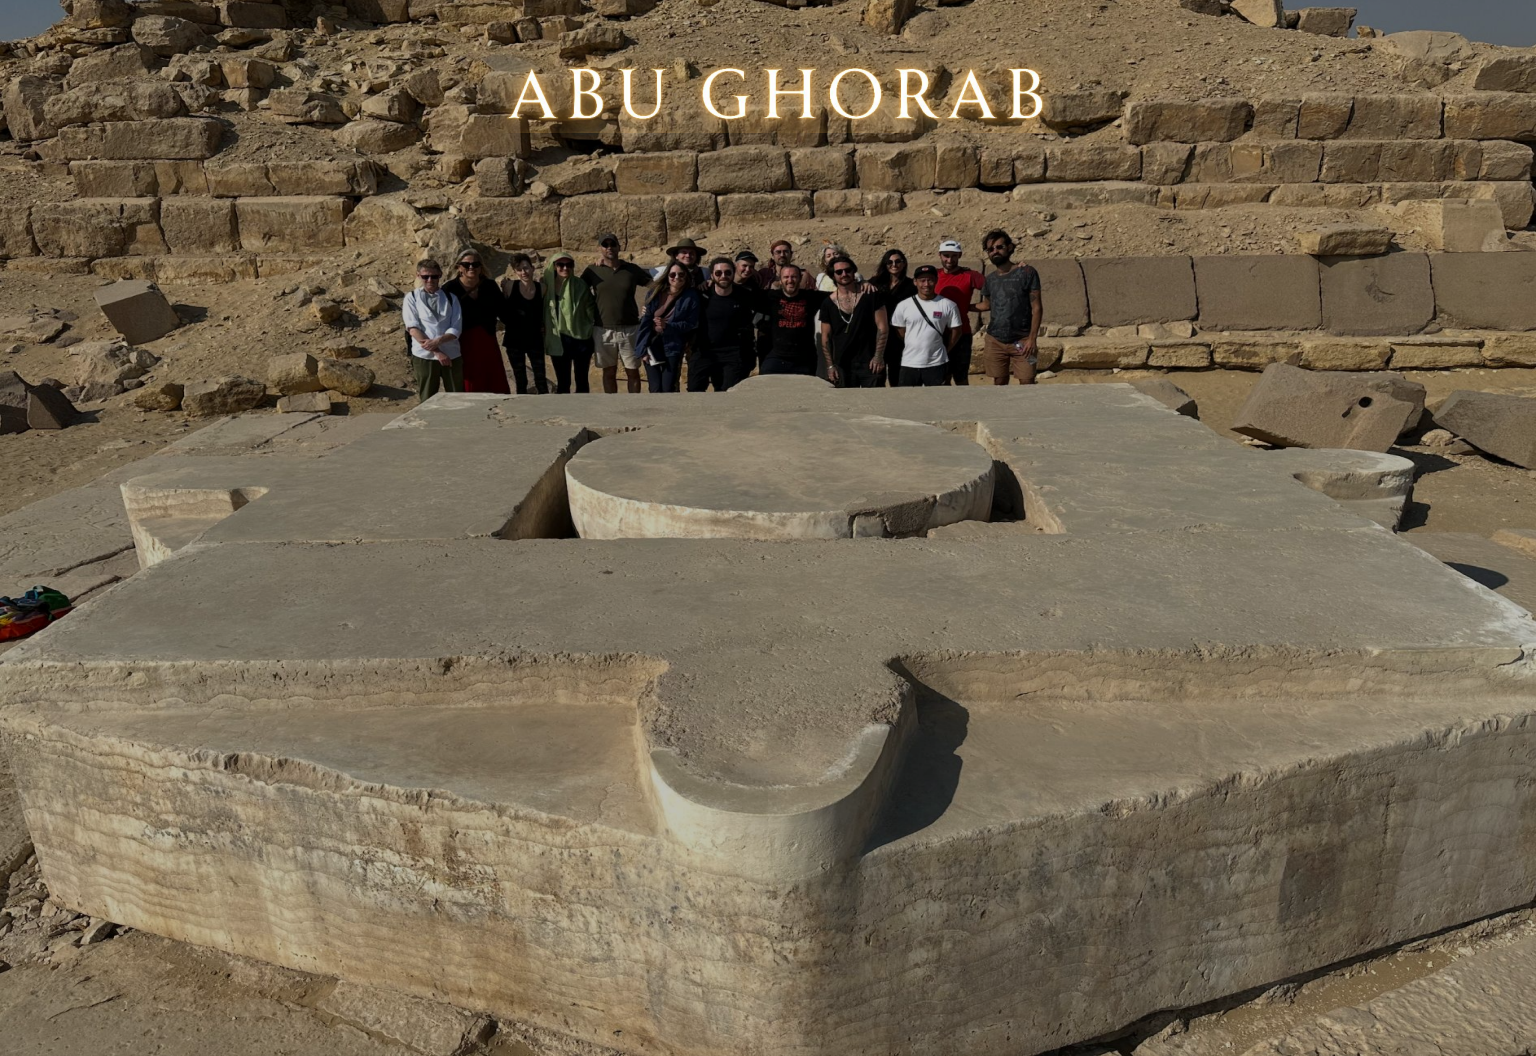

ABUSIR TOMB (private)

This private-access journey to the AbuSir tombs offers a rare immersion into an untouched ancient necropolis. You will enter into silent desert corridors where Old Kingdom mastabas and pyramidal complexes rise from the sand. This exclusive entry will allow you to stand inside beautifully carved tombs and trace reliefs depicting royal rituals. The intimacy of being alone with 4,000-year-old artistry creates a profound, contemplative experience, an encounter with Egypt's past in its most authentic, undisturbed form.

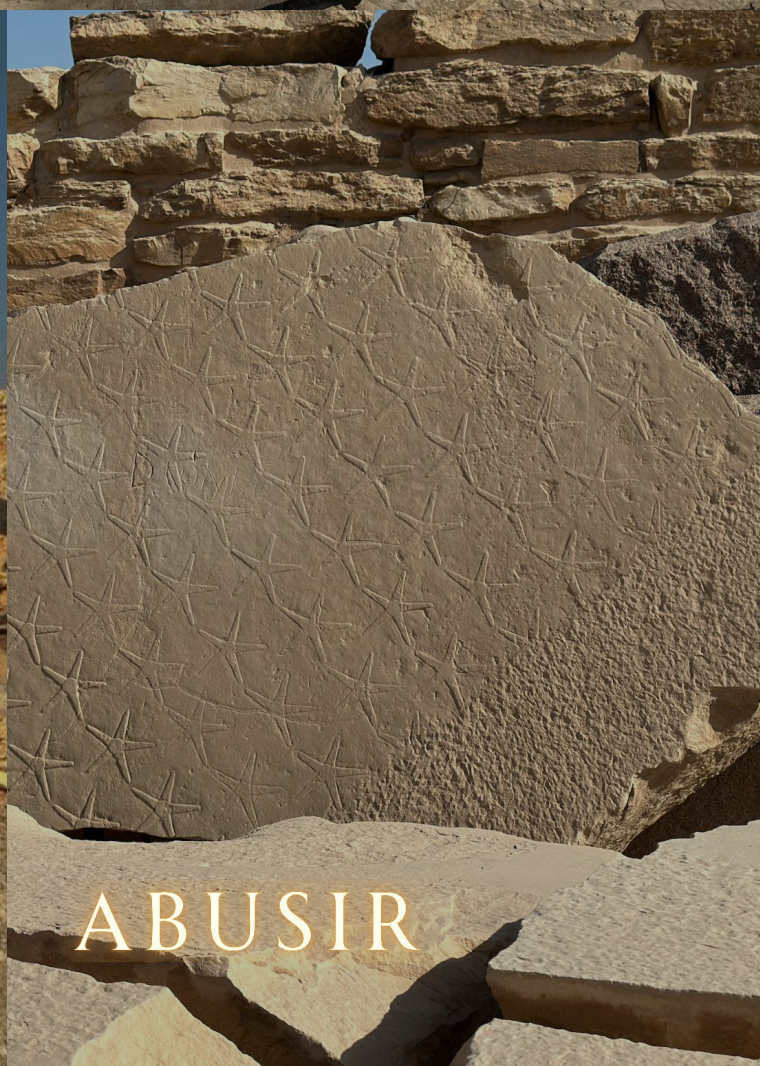

THE OSIRIS SHAFT (private)

Our final visit takes us back deep under the Giza Plateau, where we have additional permission to explore the mysterious Osiris Shaft, located under the causeway of Khafre. The shaft and its chambers were believed to be a representation of the mythical Tomb of Osiris. Descending using long metal ladders, we will explore this complex of three vertical shafts and three levels, which is at least 3,500 years old. At level 2, 25 meters underground, there are massive granite sarcophagi in two of the eight niches. The lowest level is filled with crystal-clear water, through which an ancient sarcophagus can be viewed.

TESTIMONIALS

MICHELLE NARCISO

“Traveling through Egypt with Carl was a profound gift. His curation of sites, not just which sacred places we visited, but the intentional order, timing, and energetic sequencing, created a journey that felt deeply guided, intimate, and transformative. Carl and the guides’ breadth of knowledge, warmth, and grounded spiritual intelligence made every moment feel both expansive and deeply rooted in wisdom. We moved through temples and ancient sites with a sense of safety, reverence, and care, with access and experiences that felt very rare and super sacred. The trip unfolded seamlessly, with the kind of attention and love that can only come from someone who has devoted himself to understanding the mystery, science, and soul of these places. I left feeling opened, anchored, and forever changed. I have immense gratitude for Carl!”

JARVIS SMITH

“Our private trip to Egypt with Carl Hayden Smith was nothing short of extraordinary. From start to finish, everything flowed with precision, grace, and deep spiritual intention. Held and supported every step of the way, we journeyed through sacred sites that felt alive with ancient energy temples, tombs, and timeless landscapes that opened our hearts and expanded our souls. Every detail was cared for from the hotels to the food, the transport, and the gentle rhythm of each day. It all felt intimate, intentional, and aligned. This wasn’t just a trip; it was a sacred immersion. Carl guided us through a super-spiritually awakened experience deeply vibrational, profoundly healing, and powerfully transformative. I return home inspired, grounded, and filled with gratitude for the magic we shared in the lands of Kemet. Truly a journey of a lifetime.”

JAIMA

“A journey to Egypt hosted by Carl is an invitation into the sacred. With profound wisdom and a heart attuned to the spirit of the ancients, he opens portals into realms of wonder and timeless beauty. Each temple, each stone, each story he shares becomes a key to awakening the soul. Under his guidance, the mysteries of ancient Egypt are not merely observed — they are experienced. One leaves this journey forever transformed, carrying the resonance of something eternal, something deeply remembered.”

WALTER G

“I think its fair to say that none of us were prepared for the tour Carl had prepared for us. From the Serapeum to Osiris Shaft, we were plunged into, and guided through, a profoundly mystifying and mind-expanding sequence of ancient marvels. I have no explanation for the scale, precision and beauty we witnessed over the three days but I know that I left Egypt markedly changed for the better. I am deeply grateful for the experiences Carl guided us through but also for the company of the beautiful group of souls I got to share them with. Thank you brother, you're a maestro.”

DON ROLAND

“Dear Carl, Fatima and I are just back home from our Cairo adventure with you and your wonderful team. I wanted to write while all my impressions of this magical trip you led are still fresh. Your extensive knowledge of the area, along with your kind, open heart, makes you so approachable that I felt as though an old friend was guiding me through all the sacred sites you showed us. This trip was more than a tour, you provided an atmosphere and pace that allowed our group to congeal into close friendships and share meaningful conversations throughout our very special time with you. God bless you and your team for sharing your knowledge of Egypt and its people so graciously with us. Safe travels to you my new friend.”

FATIMA ROLAND

“Dear Carl, there are no words to describe the beautiful experience that I had on this trip to Egypt with you. Being able to meet new people that I already consider dear friends/soul family and traveling to these sacred sights together have forever changed me. Something happened that I can't explain, but I feel lighter, more at peace as though the pyramids reprogrammed me. The trip was so well organized, the people that you work with are kind and caring. The Egyptians also made this trip special with their warmth and hospitality. I wish that everyone was able to make this trip at least once in their life time. Once again , thank you for being so amazing at what you do.”

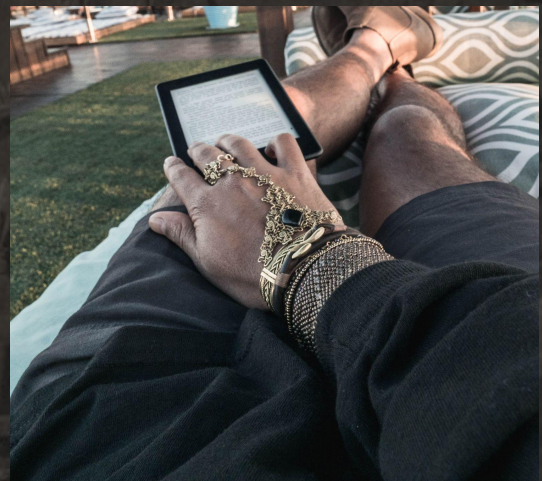

AURORA

“Dear Carl, I am Literally **EXPLODING** and **VIBRATING IN EVERY DIRECTION....** North, South, East and West with a cultivated quintessential essence of **PURE LOVE**. Feeling So inspired as my mind dances and finds its way with **“ALL OF IT**. I am relieved that I waited my entire life for this perfect alignment with Egypt and knowing that I should drop everything and join your journey. I am Feeling blessed to have met you and thank you for all of your care and untethered enthusiasm to share the magical universe and great forces of Egypt. Our true circle remained complete until the very end as we dove deep in exploration. Because of your thoughtful curation of all of “Your favourite sacred sites” Our portals of consciousness were all profoundly further opened as we All shared so much love and expansion every step of the way. You created the perfect environment. I am Looking forward to our collective infinite continuum. I have stepped back into the world with my eyes wide open.”

ELYSSA

“We’ve just returned from the trip of a lifetime to Egypt. Carl H Smith designed for our group not merely a tour of ancient ruins, but a mystical journey into another realm—using the pyramids as a portal to magic and mystery. The private visits to sacred sites were breathtaking in both their vastness and intimacy: thrilling adventures for the body, mind, and spirit, yet deeply serene at their core. The energy of those ancient sanctums pulsed through all of us, opening the hearts of everyone in our group in a wonderfully contagious way. Filled with transcendent sounds, the trip was—literally and figuratively—harmonious. The transformative power of the place, and the open hearts it engendered, made even the most mundane moments—like time spent in transit—feel joyful. We returned home grateful, brimming with energy, buzzing with ideas, and delighting in a host of new, dear friends. It was an uplifting, restorative experience—one I will remember for the rest of my life.”

LEIDA

“Carl H Smith your humour and effortless vibe are pure magic. My absolute favourite stop? The awe-inspiring Abu Ghorab. The energy vortex there was out worldly. Will savour the memories and connections made for a very long time. This was like a coming home trip at the same time and remembering.”

CAMERON

“Going to Egypt and visiting the Pyramids has etched itself in my heart as one of the most profound experiences and journeys of this lifetime. And Carl our expert guide was at the heart of this time, as he masterfully executed a beautiful moment in time for our group. It takes a mindful and precise guide to know what each group will benefit from and Carl really over delivered on his promise. The three days spent with our close soul brothers and sisters had such depth and love that was nurtured by a very well organized crew who made each outing an absolute joy. Looking forward to another magical mystery journey with you my brother.”
